AGREEMENT TO RELEASE PATIENT INFORMATION							
We do not discuss any aspect of your child's care with anyone else unless you specifically ask that we do. We understand that many people involve family and close friends in their health care decisions and would like their physician to share information with those close to them. To allow others to be involved in your child's healthcare decisions requires legal authority through a caregiver signed consent. For those that cannot provide consent, we would need a legally valid custodial care or power of attorney documentation, or an adjudicated guardianship arrangement.
